Content & Strategy Insights

01

Question-led titles

Direct questions remain a strong fit for practical Islamic/fiqh topics.

02

Seasonal timing

Milad-un-Nabi / Rabi-ul-Awwal content should be planned as a coordinated cross-platform series.

03

Mobile-first creative

YouTube watch time is heavily mobile-led, so thumbnails and on-screen Urdu text must remain legible on small screens.

04

Discovery opportunity

YouTube and TikTok are recommendation/discovery-heavy; strong hooks can expand beyond existing followers.

05

Cross-platform packaging

When a topic works on one platform, adapt the same subject into platform-specific cuts rather than reposting unchanged.
